EXPERIENCE

ACUVATE SOFTWARE PVT. LTD. | SOFTWARE ENGINEER

Dec 2022 – Present | Bengaluru, Karnataka

Acuvate is a global software service provider, they provide solutions and services that modernize, automate and support enterprise applications, IT systems, and infrastructure.

- Collaborated with clients during requirement-gathering sessions, leveraging deep industry knowledge to provide innovative solutions, resulting in a 15% boost in revenue.
- Engage in collaborative efforts with the client's backend team for seamless cooperation and effective project integration.
- Design intuitive user interfaces following client specifications to ensure user-friendliness.
- Led and managed a team comprising 4-5 members, fostering collaboration, and achieving collective goals with effective leadership.
- Engaged in projects for a diverse clientele, both domestic and international, including prominent organizations such as the NYC Department of Environmental Protection and Bajaj Finance Limited.

XPHENO PVT. LTD. | SOFTWARE ENGINEER

July 2022 – Oct 2022 | Bengaluru, Karnataka

Xpheno is a Specialist Talent Solutions company that offers Direct Hire, RPO, IT Staff Augmentation, Executive Search, Engineering Professional Services, and sales/Support Staffing services.

- Led and managed a team comprising 4-5 members, fostering collaboration, and achieving collective goals with effective leadership.
- Organized meetings with the vendor to receive in-depth product information and answers to cross-departmental questions.
- Participated in the Web Development Taskforce to provide AngularJS sites to internal customers.

INTELLEWINGS PVT. LTD. | FULL STACK ENGINEER

May 2021 - June 2022 | Panchkula, Haryana (Remote)

IntelleWings is a global solution provider, they provide Cutting-edge AML/CFT Compliance Solutions to banks and other organizations like Flipkart.

- Contributed to enhancing a preexisting user-facing application by providing comprehensive solutions encompassing front and backend functionalities.
- Enhanced an existing Angular application by adding new features and upgrading from Angular 7 to Angular 9, achieving a 40% improvement in performance.
- Led the migration to a centralized application, ensuring seamless user experience and data integrity through expertise in data structures, algorithms, and object-oriented principles.
- Implemented cloud solutions by configuring VPCs, managing VMs, utilizing Cloud Storage, and setting up Application Gateways across IBM Cloud, AWS, and Azure.
- Deployed **CI/CD** pipelines using Jenkins, **Docker**, and Linux, with server log management handled through the **Elastic Stack**.
- Directed and supervised a team of 2-3 members, orchestrating their efforts towards successful project outcomes.
- **Employee of the Quarter**, Recognized multiple times for outstanding performance and contributions to team success, particularly in project migration, CI/CD, and overall efforts.

PROJECTS

CRYPTO TRACKER

- CryptoTracker is a web tool developed with JavaScript, ExpressJS, Halfmoon Bootstrap, Axios, and Cheerio, offering a user-friendly interface.
- Users can browse the statistics of the top 10 cryptocurrencies in real-time, complete with detailed information and a Dark-Light theme. The displayed data is sourced from the official Coin Market Cap API, ensuring accurate and up-to-date information.

CHAT CORD

- Chat Cord is a web application built with Express.js and Socket.io, offering chat functionality without storing messages in a database.

COMMENT MANAGEMENT SYSTEM

- This system manages user comments with timestamps and is developed using HTML, CSS, PHP, and a JSON file as the database.
